Oroville Dam Auxiliary Spillway Incident

On 05/08/17 at 0928 hours the California State Warning Center (CSWC) was advised by the Department of Water Resources (DWR) that they will begin the scheduled increase in flows to the Feather River on 05/10/17 at 0500 hours.

- Total flow will gradually increase from 7,750 cfs to approximately 30,000 cfs by 1130 hours.
- The Oroville Dam Flood Control Spillway flow will increase to 30,000 cfs.
- Hyatt Power Plant will be operated as needed to meet ramping and storage demands.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) [as of 05/13/17 at 0600 hours](#):

- Inflow: [21,604](#) cfs.
- Outflow: [30,171](#) cfs.
- The current lake elevation is [843.36](#) feet.

SITUATION SUMMARY

2017 February Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

Per the Cal OES Coastal Duty Officer (CDO), as of 04/27/17, Hwy 1 from the south is closed at Ragged Point and is open at specific intervals to local traffic only. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Placer County:

- Truckee River at Truckee is forecast to be at flood stage at 4.5 feet on 05/12/17 at 2300 hours.
 - Potential Impacts: Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

Mariposa County:

- Merced River at Yosemite at Pohono Bridge is forecast to be at flood state at 10.1 feet on 05/13/17 at 0200 hours.
 - Potential Impacts: Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Alpine County: West Fork Carson River at Woodfords, East Fork Carson River at Markleeville
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto
- Merced County: Merced River at Stevenson

WEATHER SYNOPSIS BY REGION

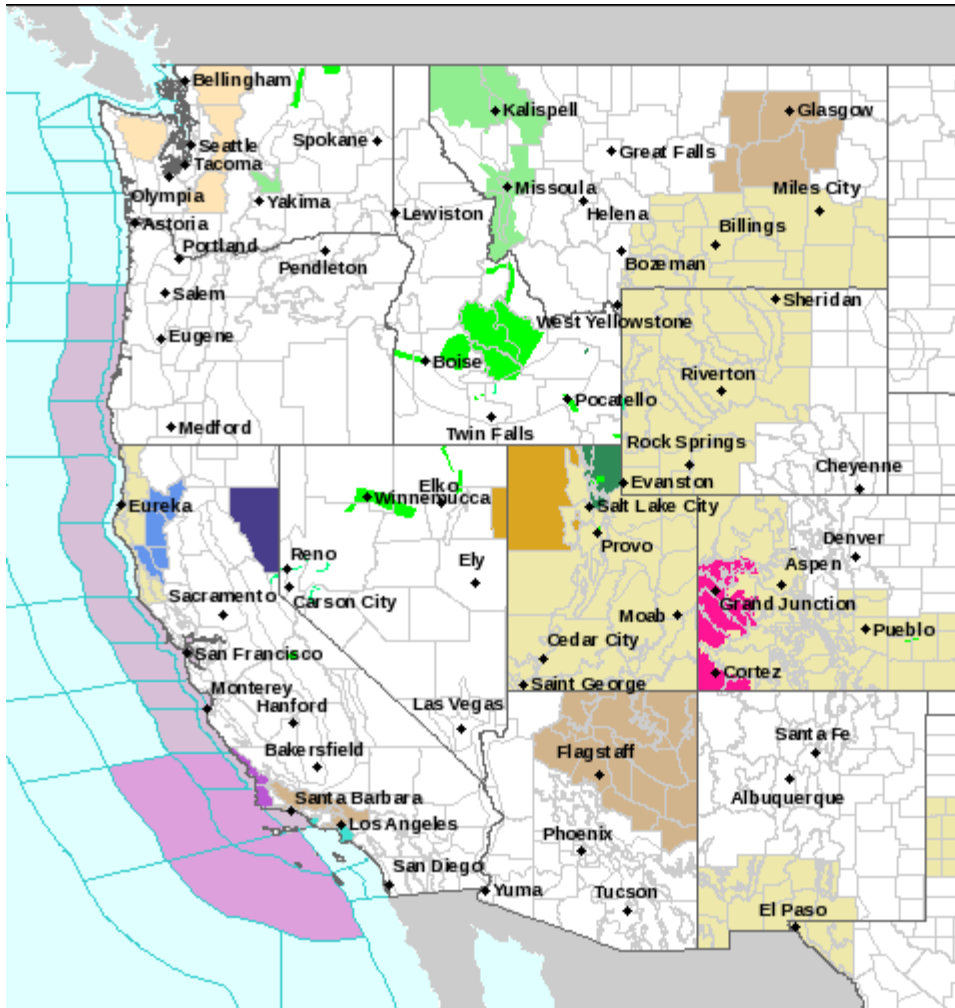

NORTHERN CALIFORNIA

Deep low pressure near the Pacific NW and a low pressure trough extending south will be the main weather influence on the region's weather through the middle of next week. Temperatures will be cooler than normal, and several waves of showers, thunderstorms, and gusty SW-NW winds will move through the region between today and next Wednesday. Snow levels will be between 3500 feet and 5000 feet in the north and 4500 feet and 6000 feet in the south through Wednesday. As each wave moves through winds will be out of the S-SW, then turn to W-NW once the wave passes. Peak gusts in wind-prone areas will be 25-35 mph with each wave. High pressure will become the main weather story beginning next Thursday. A warming and drying trend will be accompanied by gusty NW-NE surface winds for several days.

SOUTHERN CALIFORNIA

A deep trough over the Pacific Northwest will keep temperatures at or below normal through the middle of next week. High temperatures will range from the 70s along the coast to the mid and upper 90s in the desert. West winds of 20-30 mph will continue through the day in the Antelope Valley and Banning Pass eastward into the desert. This afternoon into the overnight hours, northerly winds will overspread the area as the front heads eastward. By tonight, expect north winds of 15-25 mph with gusts to 40 mph across the Santa Ynez Range, the I-5 Corridor and the San Fernando Valley. It will also be windy this weekend along the Colorado River Valley where north winds of 20-30 mph can be expected. Most other areas will see the winds slowly relax through the weekend. After a sunnier and slightly warmer day over Southern California today, the marine layer will likely deepen Sunday leading to widespread stratus that will be very slow to clear through the day. Some drizzle will be possible across the lower coastal slopes across ocean-facing slopes of Southern California Sunday and Monday. Temperatures will likely remain 5-10 degrees below average through next Wednesday with widespread marine layer coverage during the night and morning hours. Some showers and wet thunderstorms may occur in the Sierras during the middle of next week. Warmer weather may return briefly toward the weekend of the 20th.

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2017-LAW-35767, 05/10/17, 1200 hours**, Tehama County Sheriff's Department (TCSD) requested resources to locate the remains of a missing person. Missing Person (M/P) was reported missing on 12/26/16. M/P is described as an 80 year old male, and was suffering from onset dementia. M/P was reported missing by the Pittsburg Police Department (PPD). His vehicle was located and recovered on 01/05/17 on Highway M4 (39 49'19" -122 42'30 ") west of Paskenta, CA in Tehama County. A search was conducted at the time with negative results. TCSD will conduct this search with local resources on 5/20/17. TCSD is requesting (3) Cadaver Search Dog Teams to assist with this search. California Governor's Office of Emergency Services, Law Enforcement Branch is coordinating the Search dog response. **Mission Ongoing.**

Cal OES MISSIONS

Cal OES Missions

- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017.
Mission Ongoing.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
